STRONG NUTRITION.
VIBRANT TURF.
VISIBLE RESULTS.

PURE GEL 6-1-24 is a complex proprietary nutrition product, containing a highly effective combination of **N-P-K** plus minors and vitamins.

Our technology encompasses a unique blend of nutrients with advanced adjuvants and catalysts that work in synergy to maximize plant uptake, delivering fast, measurable results.

Engineered for exceptional solubility and dispersion, **PURE GEL 6-1-24** is highly efficient as both a foliar and root absorbed product—driving consistent growth and early post-germination maturation of turf.

Ideal for turf under abiotic or biotic stress, it is the perfect complement or cornerstone for any nutritional or IPM program.

NOURISHES AT THE CELLULAR LEVEL
Stimulates cellular growth and nutrient absorption.

SUPPORTS & PROTECTS
Increases turf immunity and helps resist biotic & abiotic stress.

BUILDS STRONGER TURF FROM THE ROOTS UP
Enhances root activity, tissue recovery, and plant vigor.

COMPOSITION

Total Nitrogen (N)	6,00 % w/w
Ureic Nitrogen (N)	6,00 % w/w
Phosphorus (P_2O_5) water soluble	1,00 % w/w
Potassium (K_2O) water soluble	24,00 % w/w
Iron (Fe) chelated by EDTA	0,14 % w/w
Manganese (Mn) chelated by EDTA	0,14 % w/w
Zinc (Zn) water soluble and chelated by EDTA	0,14 % w/w
Density	1,28 g/cc (11 lbs/gal)
Low in Biuret	

AVAILABLE SIZES

- 1 L (1,28 Kg)
- 5 L (6,40 Kg)
- 10 L (12,80 Kg)
- 20 L (25,60 Kg)

PURE Insight™

PURE GEL 6-1-24

NPK FERTILIZER

The Perfect Balance for Healthier, Stronger, More Resilient Turf

6 NITROGEN · 1 PHOSPHORUS · 24 POTASSIUM

MODE OF USE

PURE GEL 6-1-24 through its combination and special blend of highly concentrated macro and minor nutrient elements, is specially formulated with a **'GEL'** adjuvant creating greater efficiency for both foliar and root absorption to deliver essential nutrients effectively. This positive chemistry makes the product very effective in tank mixed applications with other nutrient and plant protectant products, and it allows for great foliar or soil dispersion.

TURFGRASS APPLICATION:

Foliar: Apply as a foliar application at a rate of 15–20 L/Ha (4.7 to 6.3 oz/M) and allow to dry on the leaves before irrigation or other subsequent applications.

Carrier rate:
200–400 L/Ha (21 – 43 gal/A) with well dispersed droplets for full foliar coverage.

Rootzone Application:
Apply at **15–20** L/Ha (4.7 to 6.3 oz/M) and follow immediately with enough irrigation to penetrate evenly to 6 cm (2.36") depth. Be careful not to overwater.

Interval:
Apply every 10 – 14 days for best results. If adjusting to tighter intervals, reduce application rate accordingly. Longer intervals can diminish the full effect of foliar activity on new young leaves that are constantly being regenerated otherwise.

PRECAUTIONS

The user assumes all risks associated with handling and application. Store in original packaging in cool, dry conditions out of direct sunlight. Best stored between 4.5°C – 45°C.

For best results, consult with a **PURE INSIGHT** representative.

This product is compatible with most foliar nutrition or plant protectant products and best mixed with other **PURE INSIGHT** products. However, conduct a jar test or turf test to determine complete compatibility when mixed with other products.

S13 "Keep away from food, beverages and animal feed".
S2 "Keep out of the reach of children".

PURE Insight™

DESIGNED TO DELIVER RESULTS THAT MATTER.

EFFICIENT N UTILIZATION
Maximizes nitrogen uptake and performance.

REDUCES STRESS IMPACT
Helps minimize stress on cell division.

STIMULATES ROOT GROWTH
Drives strong root development and new root generation.

ENHANCES TISSUE RECOVERY
Speeds recovery from damage caused by biotic or abiotic stress.

TANK MIX FLEXIBILITY
Safe to mix with other PURE products anytime.

EFFCELLENT UPTAKE & DISPERSION
Efficient gel technology for foliar or root absorption.
