CHARACTERISTICS

PURE GREEN WON is an exceptional color enhancing product for turfgrass systems that is absorbed directly through turfgrass leaves in true foliar applications or within the entire adventitious root system from rootzone applications.

Through synergy of key nutrients that directly influence the production of chlorophyll and sustained growth leading to a rapid green up, turfgrass that has **PURE GREEN WON** applied appears vibrant, healthy and beautiful for all to enjoy, with **NO ADDED NITROGEN.**

When under stress and through combinations with other PURE Insight™ products, stresses are reduced while positive color influences indicate an overall healthier plant able to withstand negative influences such as biotic and abiotic stressors.

COMPOSITION

Total Iron (Fe)	**4,00 % w/w**
Total Manganese (Mn)	**2,00 % w/w**
Total Zinc (Zn)	**0,50 % w/w**
Total Copper (Cu)	**0,30 % w/w**
Total Magnesium (MgO)	**0,50 % w/w**
Total Boron (B)	**0,30 % w/w**
Total Molybdenum (Mo)	**0,05 % w/w**
Density	**1,28 g/cc (10,68 lbs/gal)**

Poor in biuret

CONTENT

- ○ **10 L (12,80 Kg)**
- ○ **20 L (25,60 Kg)**

PURE Insight™

PURE GREEN WON

FERTILIZER

ENHANCED COLOR & TURF VITALITY
Fe

MODE OF USE

PURE GREEN WON with its proprietary blend of key beneficial nutrients and natural substances, excels at enhancing rapid turfgrass color and vibrancy when applied. Through carefully designed synergy with key nutrients, immediate response is realized through the powering of key 'greening' mechanisms within the turf plant without Nitrogen.

Turfgrass Application:

Foliar: Apply as a foliar application at a rate of 10–20 L/Ha (3.14–6.28 oz/M) and allow to dry on the leaves before irrigation or other subsequent applications. Carrier rate: 200–400 L/Ha (21–43 gal/A) with well dispersed droplets for full foliar coverage.

Rootzone Application: Apply at 10–20 L/Ha (3.14 – 6.28 oz/M) and follow immediately with enough irrigation to penetrate evenly to 6 cm (2.36") depth. Be careful not to overwater.

Interval: Apply every 10–14 days for best results or whenever you desire a rapid green up of any turf surface. If adjusting to tighter intervals, reduce application rate accordingly. Longer intervals can diminish the full effect of foliar activity on new young leaves that are constantly being regenerated otherwise.

PRECAUTIONS

The user assumes all risks associated with handling and application. Store in original packaging in cool, dry conditions out of direct sunlight. Best stored between 4.5°C –45°C. For best results, consult with a **PURE INSIGHT** representative. This product is compatible with most foliar nutrition or plant protectant products and best mixed with other **PURE INSIGHT** products. However, conduct a jar test or turf test to determine complete compatibility when mixed with other products.

PURE Insight™

DESIGNED TO DELIVER RESULTS THAT MATTER.

ENHANCES COLOR NATURALLY
Fe
Key nutrients boost chlorophyll production for a rapid, vibrant green up.

SUPPORTS PLANT HEALTH
Strengthens turf to better withstand biotic and abiotic stress.

NO ADDED NITROGEN
Greens your turf the natural way, without added nitrogen.

FOLIAR & ROOTZONE FLEXIBILITY
Effective when applied foliarly or through the rootzone.

CONSISTENT RESULTS
Apply every 10–14 days for optimal, long-lasting performance.
